THE DGPPN – YOUR HOST IN BERLIN

Experience Europe's largest scientific meeting in the field of mental disorders

This year the German Association for Psychiatry, Psychotherapy and Psychosomatics (DGPPN) is emphasising a highly topical theme, “From Therapy to Prevention”, and setting a clear course for healthcare policies. The congress will also offer you a significantly expanded English programme, certified according to UEMS standards, that will give you further and continuing education opportunities. Renowned international speakers will be among the highlights of the four days of the congress and simultaneous interpretation will be provided for a large number of events.

A strong professional society is behind the congress. The DGPPN has over 7,000 members and is thus Germany's largest and oldest scientific association of doctors and scientists working in the field of psychiatry, psychotherapy and psychosomatics. The DGPPN gives mental health a voice and, through its dedication and initiatives in the field of healthcare and related policies, campaigns for a prejudice-free life for people with mental illness in which they receive the assistance they need.

The DGPPN congress promises to be a real highlight. Get a look at the most current topics that are shaping the world of psychiatry and psychotherapy! The DGPPN warmly invites you to Berlin and is looking forward to an open exchange with international colleagues.

Dear Colleagues,

On behalf of the German Association for Psychiatry, Psychotherapy and Psychosomatics I would like to cordially invite you to attend this year's DGPPN congress in Berlin. The 2013 congress will deal first and foremost with the topic 'From therapy to prevention'.

Advances in illness-related research have paved the way for early recognition and intervention throughout medicine and thus enabled an increase in the number of healthy life years. A change in lifestyle can already reduce the risk of illness and lead to a longer life. The same is true for mental illnesses. Examples are successful early diagnosis and interventions in psychoses, dementia and suicide. Promising developments in prevention and early intervention can also be seen in depression, dependence disorders, the aftereffects of trauma and work-related mental illnesses.

Efficient primary and secondary prevention must be based on knowledge about specific illness processes. Alzheimer's disease and psychoses are current examples. A presidential symposium 'Mental illnesses and work' will present concrete prevention concepts. Preven-

tion programmes for eating disorders and suicidality will be presented in lectures (including a lecture by the EPA president, D. Wasserman). Outpatient psychiatry and psychotherapy is becoming a place for efficient preventative intervention. Primary prevention is also possible through health education, as will be shown by the bestseller author and director of the Max Planck Institute for Human Development, G. Gigerenzer, in his plenary lecture entitled 'Health as an educational problem?'.

For months our field has been confronted with the development of a new remuneration system – Flat-rate Charges in Psychiatry and Psychosomatics. There is concern that treatment quality will decrease and economical pressure will increase. The platforms on remuneration and care initiated by the DGPPN will present alternatives to the current and future systems. Several care researchers from other countries will present and evaluate novel care structures and strategies. The President-Elect of the World Psychiatric Association (WPA), D. Bhugra, will talk about the future of psychiatric services.

WELCOME ADDRESS

Another main topic of the congress will deal with the implementation of the UN Convention on the Rights of Persons with Disabilities, the new guardianship law and the ongoing reform of the psychiatry-related state laws. Ethical and legal questions will be discussed in a national context, foreign experts will also present alternative solutions and international developments. The publication of the American diagnosis system, DSM-5, has also provoked an intense public debate about the diagnostics of mental disorders and the boundary between health and illness. At the congress, amongst others A. Frances – a DSM-5 critic – and A. Schatzberg – who initiated the development of DSM-5 during his term as president of the American professional society – will exchange controversial points of view.

The enormous advances in the study of the neurobiological basis of interpersonal and social behaviour have greatly enriched the understanding of mental illnesses. Plenary lectures by renowned scientists will highlight this issue: the neurobiologist M. Meaney will talk about epigenetics and public health and the economist E. Fehr will speak on the role of fairness in markets, organisations and in individual decisions. A forum on 'Innovative treatment for depression' (A. Schatzberg, F. Holsboer) will present forward-looking perspectives.

The central opening event will address this new social dimension. The neuroscientist A. Damásio, who is recognised internationally for his work on consciousness and the bodymind problem, will talk on the topic 'Thinking about feelings'.

Further highlights include the plenary lectures and lectures by O. Kernberg on narcissistic personality disorder, by the forensic scientist U. Malt, by R. Hertwig on the limits of neuroenhancement and a special session on mental health in Australia chaired by N. Sartorius.

The DGPPN congress 2013 will especially be accessible to young colleagues from neighbouring European countries. Thus we have established a continuous English track that will cover the relevant topics in our field. Some of the Academy's state-of-the-art symposia will also be offered in English. A special anniversary coincides with this year's congress: 100 years ago, Karl Jaspers published his epochal book 'General Psychopathology'. A symposium with high-ranking colleagues (including P. Hugh, Baltimore) will recognise the continued international importance of Karl Jaspers' psychopathological reasoning. I hope that this selection of exciting programme highlights has awakened your interest in the DGPPN congress 2013 and an intensive professional and collegial exchange. I would be extremely happy to see you in Berlin from 27th to 30th November 2013. On behalf of the Executive Committee of the DGPPN and with best regards

Yours

Prof. Dr. med. Wolfgang Maier (Bonn, Germany)

CONGRESS APP 2013

With over 650 individual events and 1,600 speakers, the DGPPN Congress Berlin is more comprehensive than ever before. All the better that the official Congress App 2013 has lots of practical features: the individual workshops and presentations can be found with only a few clicks. And all congress participants can access the abstracts and search specifically for speakers and chairpersons. Your chosen events can also be added to your own calendar.

Stay online

During the congress you will have free internet access in the foyers and exhibition halls of the ICC Berlin.

WiFi password: dgppn

Download from October onwards

The Congress App will be available for free download from October on at www.dgppn.de/app

The App is also available at:

The Congress App 2013 was developed by Globit GmbH.

Questions and Answers

Get involved in the live events with the Congress App 2013. The Question and Answer module lets you ask questions and sends comments during an event. Actively participate in the DGPPN Congress Berlin. This service will initially be available in the large halls of the ICC.

The Congress App is designed for smartphones that run on the most popular operating systems iOS and Android.

CONGRESS REGISTRATION

All participants at the congress are obliged to pay the congress fees. Chairpersons, speakers and poster presenters are not in any way exempt from the payment of the complete congress fees.

In the first year of their membership new DGPPN members can participate in the Psychiatry Congress Berlin for free, provided that they have paid their membership fee by the start of the congress. Free participation is only available to members who remain in the DGPPN for more than one year. Please submit your membership application to the DGPPN-Office.

Participation Fee	Registration and Payment
Member DGPPN, DGKJP, ÖGPP, SGPP	EUR
Doctors, Psychiatrists, Psychologists a.o.	300
New-DGPPN-Member ²⁾	0
Assistant Doctor	250
Non-Member	EUR
Doctors, Psychiatrists, Psychologists a.o.	530
Assistant Doctor	400
Student ¹⁾	100
Affiliated Health Care Professionals (non-academic)	190
European Grant ⁴⁾	0
Day Pass ³⁾	300

¹⁾ Please forward the certification via mail, email or fax to the congress office:

CPO HANSER SERVICE GmbH, Paulsborner Straße 44, 14193 Berlin, Germany

Phone: +49-30-300 669 0, Fax: +49-30-300 669 50, Email: dgppn13@cpo-hanser.de

²⁾ In the first year of their membership new DGPPN members can participate in the Psychiatry Congress Berlin for free, provided that they have paid their membership fee by the start of the congress. Free participation is only available to members who remain in the DGPPN for more than one year. Please submit your membership application to the DGPPN-Office (DGPPN – German Association for Psychiatry, Psychotherapy and Psychosomatics, Reinhardtstr. 27 B, 10117 Berlin, Germany).

³⁾ Congress participants who do not give a scientific contribution can buy a day pass. All participants at the congress are obliged to pay the congress fees. Chairpersons, speakers and poster presenters are not in any way exempt from the payment of the complete congress fees.

⁴⁾ The grant will be awarded to applicants from non-German-speaking European countries who can provide proof of their licence to practice medicine or employment as a doctor in a psychiatric-psychotherapeutic practice or hospital or a certificate of matriculation from a medical faculty.

General conditions can be found on the website at www.psychiatry-congress-berlin.org.

European Grant

Free admission to the congress for the first 400 applicants.

The Executive Committee of the German Association of Psychiatry, Psychotherapy and Psychosomatics (DGPPN) is pleased to be able to provide free admission to the congress for 400 colleagues. This year's Psychiatry Congress Berlin is entitled "From therapy to prevention" and will take place from 27–30 November in Berlin.

Application

The grant will be awarded to applicants from non-German-speaking European countries who can provide proof of their licence to practice medicine or employment as a doctor in a psychiatric-psychotherapeutic practice or hospital or a certificate of matriculation from a medical faculty.

The grant is intended in particular for participants who are unable to pay the congress fee themselves.

Travel Grant Eastern Europe

This year, for the first time, the DGPPN is offering a travel grant to participants from Eastern Europe.

The first 50 applicants from Eastern European countries who submit their original ticket to the congress office CPO HANSER SERVICE GmbH will receive up to a maximum of EUR 200.00 towards their travel expenses.

Application

The grant will be awarded to applicants from non-German-speaking European countries who can provide proof of their licence to practice medicine or employment as a doctor in a psychiatric-psychotherapeutic practice or hospital or a certificate of matriculation from a medical faculty.

The grant is intended in particular for participants who are unable to pay the congress fee themselves.

The necessary documents should be in German or English and be sent electronically, by fax or by post to the congress office CPO HANSER SERVICE GmbH:

dgppn13@cpo-hanser.de

FAX +49-30-300 669 50

MAIL CPO HANSER SERVICE GmbH, Postfach 330316, 14173 Berlin, Germany

GENERAL INFORMATION

CME Certificates

The DGPPN Congress Berlin 2013 is accredited by the European Council for Continuing Education (EACCME) to provide Continuing Medical Education (CME) credits to physicians. The following credits are sought to be certified:

Full day ▶ 6 points

Half day ▶ 3 points

You can request your certificate of attendance along with your CME credits online at www.psychiatry-congress-berlin.org from **2 until 31 December 2013**. Your attendance and full payment will be audited.

Congress App

During the congress the entire congress programme will be available as an App on your smartphone with iOS and Android. With this App you will be able to specifically search for sessions, lectures, speakers and abstracts and view the current programme schedule.

Poster Exhibition

Posters will be displayed from Thursday, 28 November until Saturday afternoon, 30 November.

Opening hours

Thursday	28 Nov 2013	09.00 – 18.00 h
Friday	29 Nov 2013	09.00 – 18.00 h
Saturday	30 Nov 2013	09.00 – 12.00 h

Congress Kindergarten

Family-friendly policies play an important role not only in the day-to-day routines of psychiatry but also at scientific congresses. For this reason, the DGPPN in conjunction with Kinderinsel Berlin (www.kinderinsel.de) is offering experience-based child care and creative learning workshops free of charge during the congress for children of registered congress attendees.

Opening hours

Wednesday	27 Nov 2013	07.30 – 19.30 h
Thursday	28 Nov 2013	08.00 – 19.30 h
Friday	29 Nov 2013	08.00 – 19.30 h
Saturday	30 Nov 2013	08.00 – 17.30 h

Technical Exhibition

The technical exhibition will take place in the exhibition Halls 12, 13 and 14.1.

Exhibitors are companies, organisations, publishing houses as well as regional booksellers.

Opening hours

Wednesday	27 Nov 2013	09.00 – 18.00 h
Thursday	28 Nov 2013	09.00 – 18.00 h
Friday	29 Nov 2013	09.00 – 18.00 h
Saturday	30 Nov 2013	09.00 – 14.00 h

Public Transport

Public transportation between Tegel Airport, Schönefeld Airport, Berlin Central Station (Hauptbahnhof) and the congress centre ICC Berlin:

Berlin Central Station (Hauptbahnhof)

■ City West (Zoologischer Garten):

S-Bahn lines S 5, S 9, S 7, S 75 or RE 1 to Zoologischer Garten

■ City Ost (Alexanderplatz):

S-Bahn lines S 5, S 9, S 7, S 75 or RE 1 to Alexanderplatz

■ ICC Berlin:

S-Bahn lines S 5, S 9, S 7, S 75 to Westkreuz, than S 41, S 42 bis Messe Nord/ICC

Tegel Airport

■ City West (Zoologischer Garten):

Bus line 109 or X 9 to Zoologischer Garten

■ City Ost (Alexanderplatz):

Bus line TXL to Alexanderplatz

■ ICC Berlin:

Bus line X 9 to Jungfernheide, transfer to S-Bahn lines S 42, S 45, S 46 or S 47 to Messe Nord/ICC

Schönefeld Airport

■ City West (Zoologischer Garten):

Airport-Shuttle SXF to Potsdamer Platz; Bus shuttle to S-Bahn station Flughafen Berlin-Schönefeld DB, transfer to S-Bahn line S 9 to Zoologischer Garten or Regio RE 7 to Zoologischer Garten

■ City Ost (Alexanderplatz):

Bus-Shuttle to S-Bahnstation Flughafen Berlin-Schönefeld DB, then S 9 to Alexanderplatz; Regio RE 7 to Alexanderplatz

■ ICC Berlin:

Bus shuttle to S-Bahn station Flughafen Berlin-Schönefeld DB, transfer to S-Bahn line S 45 to S-Bahn station Hermannstraße, transfer to S 41, S 42 to Messe Nord/ICC.

Taxis

Taxis are available on the lower level of the ICC Berlin. Phone:

+49 – (0) 30 – 210 202 or +49 – (0) 30 – 261 026

The congress registration fee includes the following services and participation in:

- Scientific programme
- CME certificate
- Final Congress Programme
- Industrial – and Poster Exhibition
- Opening Ceremony
- Get-Together
